

Master's degree

The second level of higher education, following the bachelor's degree and allowing for deeper specialization in a specific professional field.

The standard period of study is 2 years.

The qualification of "master" is awarded.

A master's degree gives the right to enroll in postgraduate studies.

Areas of study, admission targets for the budget, number of places allocated for applicants under the target quota, number of places on a contractual basis, list of entrance examinations, cost							
Areas of study, specialties	Target admission figures for the budget	Number of places allocated for applicants under the target quota	Number of places on a contractual basis	List of entrance examinations	Passing score in 2023	Cost for citizens of the Russian Federation and the CIS in 2024 - 2025	Cost for citizens of far-abroad countries 2024 - 2025
Master's degree (full-time education - 2 years)
